## DETAILED ACTION

### *Election/Restrictions*

1. Claims 1-4 allowable. The restriction requirement, as set forth in the Office action mailed on 11/02/06, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 3 and 4, directed to a liquid crystal display device withdrawn from further consideration because it was directed to a non-elected species require all the limitations of an allowable generic linking claim as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

## EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

Art Unit: 2871

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows”

Change Title To: --Liquid Crystal Display Device with Field Sequential Light Source and Optical Medium--

Authorization for the following examiner’s amendment was given in a telephone interview with Attorney Melvin Kraus on 2/28/07.

The application has been amended as follows:

Re claims 5-13: Cancel claims

*Allowable Subject Matter*

3. Claims 1-4 allowed.

4. The following is an examiner’s statement of reasons for allowance: The prior art of record, taken alone or in combination, fails to teach or disclose, in light of the specifications, a liquid crystal display device characterized in that an optical medium which changes over transmission and reflection of light, color filter and a reflector sequentially arranged from a viewer side, the light source has a luminescence part providing three primary colors, the light from the light source is sequentially changed over to constitute the three primary colors, the optical medium enables reflection of light when the light source is used and enables the permeation of light when ambient light is used.

Art Unit: 2871

Yuuki et al. (US 7,002,649 B2) disclose a liquid crystal display device with a light guide plate (12), a liquid crystal display pane (16). However, the reference does not disclose that the light source provides three primary colors that is sequentially changes over to constitute the three primary colors, nor does the reference disclose a color filter and a reflector arranged sequentially after the optical medium from a viewer side. Kimura et al. (US 6,789,910) discloses a light source that sequentially changed over to constitute the three primary colors (col. 13, lines 7-17), but does not disclose it being used in conjunction with the optical medium or color filter and a reflector in the claimed sequence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
